The REAL Golf is back in VR with VR SPORTS - Golf! This edition includes Arnold Palmer (the King of Golf) himself as a playable character. Arnold has picked up where the original Golf left off, but instead of a real game (since you can't play real Golf outside of VR) he's taken it inside and be playing against you! Arnold, as you know, is a legend on the green, but how far does he really go? It's up to you to find out! You can use your Controller to stand up in place, meaning, you can't move forward with your normal movement but you'll be up in the air in a sitting position making use of some movements such as this one you can make: standing up straight. This feature will also be leveraged for other modes of play such as VR Party Play! And for those of you who didn't see the original Golf VR - golf is still your game! Key Features: - Player may now stand - Each player receives their own handicap - Arnold Palmer is included as a playable character - Players will be able to compete in singles and doubles mode - Players will also be able to play "Online" with AI's and Player 1-4 in doubles mode Recommended Hardware/Software: - HTC Vive - Steam - Windows 8.1 - Windows 10 Game Categories: - Sports - Golf Publisher: - Capcom - This game may be played using a gamepad or using the HTC Vive motion controllers. - No gamepads available - HTC Vive motion controllers available EVE DICE

Cavern Crumblers is a competitive game of reactions, precision, and explosive destruction that provides a great couch gaming experience for 1-4 players. With a gun and limited grenades at your disposal, you will compete with your friends in various game modes on a map filled with destructible terrain. Through the players' actions and collateral damage, the landscape of the world will crumble around you throughout the game, providing a unique experience each time you play. PLEASE SEND ME A REPLY OF WHAT I DID WRONG SO I COULD GET MY DOUGHNUTS BACK. ALSO, PLEASE ADD A MODE WITHOUT THE GUNS., 399 P.2d 583, 584 (1965) ("Those who purchase in reliance on the broker's representations may be entitled to legal relief against the broker * * *."); Garman, 528 F.Supp. at 818 ("[E]ven though he [the broker] may be liable for fraud [to the purchaser], the Court concludes he cannot be held liable to his principal. That is to say, `the law of agency, at least since 1885, considers agency as complete when the agent receives notice of the fraud.' * * *."). Therefore, even if the plaintiffs could be deemed third party beneficiaries of the franchise agreement, the franchise agreement alone does not sufficiently evince the kind of intent necessary to support a fraudulent misrepresentation claim.[2] 2. The plaintiffs argue that the franchise agreement and the clause in the receipt for the franchise agreement create an ambiguity which creates an issue of fact as to whether J & B Motors' conduct was intended to benefit the plaintiffs. This argument is without merit. The terms of the franchise agreement do not evince an intent to benefit the plaintiffs. See Michiko v. Halley, 213 Kan. 369, 516 P.2d 993, 997-98 (1973) (where a term of the franchise agreement does not create a fiduciary duty, absence of such a term in the franchise agreement does not create a duty of care). Nor does the clause in the receipt for the franchise agreement create a fiduciary duty owed to the plaintiffs. See Camp c9d1549cdd

(See gameplay in game video at the end of the article) The gameplay of "Fighters For Clip Maker" is quite simple. You have a good camera and an environment. It is still quite easy to get the right result, but first of all, you need to get used to the game, to how it works and all menus and tools are. You will probably use the 4 most popular recording tools: • Keyboard • The mouse • The game controller • The gamepad The problem for beginners is, that they don't know which tool is best for which, but there is a solution for that too. In this lesson we will start with a gamepad. The gamepad you see in the video has a scroll wheel, but in the rest of the game, there are only keys. So, when you press keys, it will automatically select the corresponding tool. And there are only 6 different tools: • Create • Cut • Add • Animation • Collapse/Expand • Playback You will understand how to use this better if you watch the video. In the beginning, in the first fly-through, you only have one goal: to demonstrate the appearance of the game and to show the game setup. The closer you follow the tutorial, the better you will understand the game and all the features. So for the rest of the lesson, I will not explain the features of the game, but will show you the menu and all tools, then you will realize how everything works. Basically, I will show you how to use all the tools to get a good result. I think that you will understand the rest of the game very easily and that you will start creating interesting clips much faster. Let's start with a simple tutorial, to familiarize you with all the features of the game, so you will understand everything in the beginning. 1. Creating a new movie and setting all options to "Easy" If you look in the upper-left corner you have the Menu. Here you can change the language, options and stuff. If you start, it will be in English so you won't understand anything. In the beginning, you only need to watch one video tutorial, so start with this one. It will show you how to go to all menus and what you need to do in each of them. 2. Recording with the gamepad

The United States has been largely shut out from a recent wave of deals between producers that produce just over a third of the world's oil, a deal that includes Iran, Iraq, Russia, Oman and a number of other countries. But amid rising tensions in a region that buys most of Saudi's oil, Riyadh wants Washington's support at a time when Trump's decision on whether to pull out of the Iran nuclear deal is coming into play. At a news conference in the Australian capital of Canberra, Trump, after meeting with Saudi's de facto ruler, discussed with Australian Prime Minister Malcolm Turnbull a deal that would include "significant" U.S. shale oil exports, according to the White House. "The president and I discussed the foundation for these arrangements with great enthusiasm and optimism," Turnbull said. "I look forward to continuing this discussion with the crown prince." Trump later told journalists at a White House event, "We're going to make it big at some point. It's going to be very big." But one oil industry analyst said deals struck by energy ministers were necessary, drawing criticism from some oil industry experts, because they typically allocate oil supplies among projects of varying size, rather than providing the U.S. industry with near-term market access.
