Exhuming The Neutron - Necrozombie Version 1.1 \*. Felicia'sComparative proteomics of normal mammary epithelial and breast cancer epithelial cells by 2-D gel electrophoresis. Proteins extracted from normal mammary epithelial and breast cancer epithelial cells have been analyzed by two-dimensional gel electrophoresis using isoelectric focusing and sodium dodecyl sulfate polyacrylamide gel electrophoresis. At least 516 distinct proteins were reproducibly identified, including many previously unknown proteins. When considered in the context of cellular phenotypes, 1,331 differentially expressed proteins were identified. Identifying both known and novel proteins is essential for a full comprehension of cellular phenotypes.Hobbies & Interests I love live music and performing. It's important for me to keep moving, and I enjoy yoga, dancing, tai chi, and walking. I also love photography and making art. Political Views I'm a liberal who strongly supports marriage equality and abortion rights. I also support strengthening the rights of LGBTQ people and the disenfranchised. I have an opinion on President Trump, but I try to maintain neutrality. I generally try to vote for people based on their policies and their candidates, rather than whom they are. Education I have a bachelor's degree in accounting from Rutgers University, and I'm currently working on a master's degree in business.
