Story Rokiahhi is a member of the P.A.S.K.A.L, the elite agency of the Bureau Investigation. After experiencing an incident on the road between the city of Eos and Stane 6, she was asked to go and investigate on the suspicious activity of Amino Corp. After reaching the destination, she came across a Tranquilizer Ray which made her stunned for a few seconds and she fainted. She opened her eyes but she was still stunned so when she tried to walk, she fell on her face. Then she got a message from another agent in the surveillance camera saying he is in trouble. Title:Tears Of Steel Genre:Action/Adventure Developer:Kiwit Games Price: \$2.99 Platform:PC/Mac I have an old PC so when I bought the PC version it ran surprisingly well considering it was made in 1998. The controls are simple, move with the arrow keys and jump with spacebar. The most challenging part is finding items but once you find them the game becomes easy. The background music is only in Japanese but that doesn't affect the gameplay which is good considering that's the first language I started playing the game in. The entire game play reminded me of Fallout3 but with less storyline. I enjoyed the game and it's fairly short to play through. The art style reminded me a bit of Shadow of The Colossus. I'm looking forward to future releases from this company, I hope they can produce more quality games. Name:Mupen64 Title:Mupen64 Genre:Action/Platformer Developer:Artsmupen Price: \$0.99 Platform:Mac I was sent a code of a game I couldn't download directly. After some digging I finally found the game's webpage at mupen64.com. I downloaded the free demo, installed the program and d41b202975

The gameplay will be quite straightforward, this is not a difficult game. It can, however, be described as a gothic, puzzle-platformer, with the player in control of the hero and using non-mechanical means to survive. Namsiku, a shaman from pre-Columbian times in South America, arrives to the Amazon jungle for the first time. He does not have any clue what has happened there, and he is not sure whether it is a punishment by the gods or a nearby village attacking them. What he does not figure out is that, from that moment on, everything will never be the same again. Namsiku's odyssey is about to begin. Gameplay ends here. How to use Games Operators? Games Namsiku opens his eyes, gets up, looks around, and sees how everything is ablaze and destroyed. Chaos is everywhere, and he does not know what is happening. He thinks it may be a punishment by the gods, or a neighboring village attacking them. What he does not figure out is that, from that moment on, everything will never be the same again. An odyssey is about to begin in the midst of the Amazon jungle, where frustration, anger, and uncertainty will prevail. Namsiku is a shaman from pre-Columbian times in South America, more specifically from the Amazon, who will show us, through an allegory of the real history of the conquest, all the suffering, disillusionment, and fear felt by the indigenous peoples as they lived through this chapter of invasion and violence. It is a journey to the unknown, to get closer to the mysticism of pre-Columbian tribes. Gameplay Review BLANK SPACE: The gameplay will be quite straightforward, this is not a difficult game. (DEEP SPACE) COMPLETION DATE: 1997-05-30 TRANSCRIPT There's a lot of beautiful women... >> There's lots of pretty women in the world. There's one really pretty woman. Now, this beautiful woman over here, LORELEI, had an interesting history. She was once married to a wonderful man, who was very, very fond of her. And, at times, extremely jealous of her. Sometimes

he was completely fickle, sometimes he was completely faithful. From the very beginning, to the end, he would try to beat Lorelei down. He'd bite her head off, kick her ass, drown her, kill her, divorce her, take up with her again, another fella, marry her, get divorced, and marry her, then get killed in a car wreck. And the whole time, Lorelei was dreaming of those big green eyes of HIS. She'd have cravings for the dark-haired one. She knew she'd never be rich. When she was young and beautiful ladies on ships were her men. But, she had to have them. She'd go for more than a single date, permanently, usually. Because, when she'd get to know a man pretty well, on some level, or if she really liked him... you know, they'd have that connection... very good connection, they were in love... Her shoe size would narrow, uh, by half a shoe. And she couldn't, couldn't, couldn't take another. When she took him home, she realized what a home was like. When her pay was high, she bought him diamonds. When she was on welfare, she welcomed him in her home. And if he knew how to be sweet Lorelei would throw her arms around him, and give him diamonds. Now this woman later came to know what I was like, way, way later, back around two thousand years ago, or twelve thousand years ago
